

# DSA Guidance Document

This document gives the details of the how to prepare DSA for coding interviews on your own.

I want you to fill the following sheet regularly. This will help you in noting your level of preparation. Also, it will help you in understanding the path you have to take for acing the STEP internship.

[Preparation Sheet](#)

To read the theory of different topics in DSA, please follow the articles on the following link.

[Hackerearth Complexity](#)

[Hackerearth Datastructures](#)

[Hackerearth Algorithms](#)

Once you have read the theory for a given topic choose a few questions to solve from the following sheet.

[Problems](#)

To choose a problem,

1. Go to the Google Topic-wise sheet.
2. Filter the questions which require the topic you read.
3. Choose a question which is slightly tougher than your current level. You can do this by monitoring the acceptance rate of the questions you are solving.
